ARHOUSE Unlimited is a charity that represents a collective of artists with complex neuro-diverse and physical support needs. The artists work alongside instructors to create artworks which are developed into designer products for sale. All artwork derives from the skills each artist brings to the enterprise and every contribution holds real value.

Offering a sense of purpose lies at the heart of ARHOUSE Unlimited's philosophy in line with our belief that feeling truly respected improves health, happiness and well-being. We strive to challenge perceptions and to create better acceptance and inclusion for people living with neuro-divergence and physical adversities.

MEET ONE OF THE ARTISTS

We are delighted to include Simon's work in our 2025 range.

Simon's uniquely expressive work has become an essential part of ARHOUSE design throughout his long and accomplished career. Working with incredible focus and energy, he carves bold figures bursting with life. Initially focussing on loose pencil line work with instructor Matt, Simon has incorporated smudged graphite and painting to his process in recent years, bringing even deeper textures to his rich portfolio.
